If his current game plan for the elections is successful, he will likely win with a plurality of the vote. First of all, he is using the elections to change the government. This will be a major challenge to the state oil company and its distribution network, which is controlled by the Russian Orthodox Church. The third move is to promote Viktor Zubkov, a former prime minister and head of the Central Bank, to become finance minister. This will have an immediate impact on Russia's budget, since Zubkov is widely regarded as a pro-Putin finance minister. Putin's strategy appears to be to split the opposition into two camps. One is the hard-line supporters of Navalny, and the other is
