Note You'll find more ways to convert Faces to Photo Albums, and back, later in this chapter. But, the Photo Manager is easier to use than the Photo Album Editor. That said, if you're looking for a way to force the Faces to turn into Photo Albums, or the Photo Albums to turn into Faces, you're best off doing it in the Photo Album Editor, as explained in the next section.

Q: ORA-01484 in SELECT INTO...INSERT INTO I have a very simple database application that queries an Oracle database, puts the results into a table in a Delphi database app, and extracts the data into the Delphi app. The DB uses an 'autocommit' option, and the Delphi app is using a transaction. The recordset returned by the database is: SELECT TO_NUMBER(CASE WHEN INSERT_STATUS = 'T' THEN 'Y' END) INTO myRowVal FROM TABLE; This works great for querying the database and returning a single row as a string. However, I am trying to create a recordset which returns a value on each row. Therefore: SELECT TO_NUMBER(CASE WHEN INSERT_STATUS = 'T' THEN 'Y' END) INTO myRowVal FROM TABLE; INSERT INTO myTable (myColumn) SELECT myRowVal; This is the relevant section of the Delphi app. The error is ORA-01484: not all variables bound. I assume that this means that there are some other values in the table (other than TO_NUMBER(CASE WHEN INSERT_STATUS = 'T' THEN 'Y' END)) that are not being bound to myRowVal, so the INSERT INTO statement fails. Is there a way to avoid this problem? I've been searching the forums, but I can't find anything about inserting into a query and returning a value. Thanks A: I think you are looking for a placeholder, with a similar construct to a bind variable in PL/SQL. Something like this: SELECT TO_NUMBER(CASE WHEN INSERT_STATUS = 'T' THEN 'Y' END) AS myRowVal FROM TABLE You would then do something like this: myRowVal := Null; INSERT INTO myTable (myColumn) SELECT myRowVal FROM (SELECT TO_NUMBER(CASE WHEN INSERT_STATUS = 'T' THEN 'Y' END) AS myRowVal FROM TABLE) WHERE ROWNUM = 1 The invention relates to a device for taking over a vehicle that is traveling forward, in particular a forklift. The device has a lifting head that is adjustable for taking

Psychiatric morbidity among patients with lymphogranuloma venereum and undifferentiated urethritis. To evaluate whether undifferentiated urethritis (UDV) (febrile urethritis of unknown etiology) is associated with psychiatric morbidity. We included patients with lymphogranuloma venereum (LGV) (n=85) and a group of 676 randomly selected men from the general population (n=384) with at least four episodes of UDV and without LGV-related symptoms. All participants completed a questionnaire about lifetime psychiatric morbidity, and the two groups were compared. Overall, the mental health of patients with LGV and UDV was comparable to that of the control population. However, LGV was associated with specific increased risks of anxiety and depression, as well as suicidal ideation. Treatment of LGV is relatively easy as it does not require a specific antibiotic treatment. Nonetheless, the potential long-term mental health consequences should be considered before the infection is treated. In this large, population-based study, LGV was associated with increased symptoms of anxiety and depression, and suicidal ideation, in men compared to the control population. However, the overall risk of psychiatric morbidity was rather low.Canton of Le Mans-2 The canton of Le Mans-2 is an administrative division of the Sarthe department, in northwestern France.
